## Don't Think Twice, It's All Right

- Verse 2**    It ain't no use in turnin' on your light, babe  
                That light I never knowed  
                An' it ain't no use in turnin' on your light, babe  
                I'm on the dark side of the road  
                Still I wish there was somethin' you would do or say  
                To try and make me change my mind and stay  
                We never did too much talking anyway  
                So don't think twice, it's all right
- Verse 3**    So it ain't no use in callin' out my name, gal  
                Like you never did before  
                And it ain't no use in callin' out my name, gal  
                I can't hear you anymore  
                I'm a-thinkin' and a-wond'rin' all the way down the road  
                I once loved a woman, a child I'm told  
                I give her my heart but she wanted my soul  
                But don't think twice, it's all right
- Verse 4**    I'm walkin' down that long, lonesome road, babe  
                Where I'm bound, I can't tell  
                But goodbye's too good a word, gal  
                So I'll just say, "Fare thee well"  
                I ain't sayin' you treated me unkind  
                You could have done better but I don't mind  
                You just kinda wasted my precious time  
                But don't think twice, it's all right
